GMRS — AMATEUR — FRS — BASE / MOBILE

You recently got your GMRS license. Now ...

WHAT'S YOUR NEXT STEP?

REACT— Radio Emergency Associated Communications Teams

REACT has been on the scene for 30+ years. We provide 2-way communications as a public service in emergencies and as a public service to our communities. Want more info — REACT International web site at <http://www.reactintl.org>

Public Service Through 2-Way Radio Communications

Crest Communications / Crest REACT Team #4252, Corona, California

Come Join Us:

Crest REACT meets the 1st Thursday @ 7:00 p.m. of each month at the Corona Senior Center, corner of 10th & Belle in the city of Corona. Visitors are always welcome.

Monday Night Net:

REACT teams from all across southern California check in on the Monday Night Net at 8:00 p.m. on 462.675MHz. No Radio? Use a scanner — and listen to the most current news available.

Want More Information?

One e-mail to us and you'll have all the information you need. Just send a message to membership@crestcom.org and you have your FREE information from an auto-reply information mailbox.

On the Internet:

Crest REACT maintains an extensive and informative web site featuring news, schedule of events, links and other topics. Please visit our site to learn more about who we are, what we do, and how you might get involved. <http://www.crestcom.org>

2-Way GMRS Communications in SoCal

Southern California an one of the most extensive GMRS repeater networks in the United States. Crest REACT and other REACT members rely heavily on the capability of GMRS base & mobile operators to stay in touch with each other and their loved ones.

Over the years, Crest REACT has focused on building and maintaining a reliable GMRS repeater network throughout our service area. Today, that network is a reality. And, with your new GMRS license, it is available to you.

We realize people obtain their GMRS license for many reasons. Our purpose in providing this information to you is to share information about GMRS communications in southern California and introduce you to the many benefits of REACT membership.

Please listen in to the Monday Night Net. During the "Net" we'll be asking if there are any new GMRS license holders who would like to "check in" with the network moderator. Don't be shy.

We'd like to hear from you.

An Open Invitation from Crest Communications —

Welcome to the General Mobile Radio Service — or GMRS. Your new license is more than just a piece of paper, it's an instant opportunity. You may not know it, but GMRS is very much alive in southern California.

— Crest REACT —

Our team has been active in southern California for more than 20 years. Since 1978, our team of volunteers have been very active providing hundreds of hours of communications throughout Orange, Riverside, San Bernardino, Los Angeles, and San Diego counties.

As a new General Mobile Radio Service license holder, you are immediately eligible to apply for many of the FREE benefits available to Crest REACT members:

Some of these **FREE** benefits are:

- **FREE** radio training
- **FREE** use of our REACT repeater network
- **FREE** use of our PERSONAL repeater network [members in good standing]
- **FREE** advise on radio equipment
- **FREE** information on license renewal procedures
- **FREE** instructions on proper repeater use & communications guidelines
- **FREE** chance to meet people who share an interest in GMRS radios.

— Personal Use Frequencies —

Your new license also provides you with instant authorization to apply for personal use on our GMRS repeater network. It is available at a very low cost, making it both convenient and affordable. Many new GMRS users who elect not to join our team are pleasantly surprised to learn how inexpensive this service is, especially when considering how large the geographical area is covered by our network. They use this fee-based service to communicate with family members. It allows them to stay in touch and provides an "additional measure of comfort" knowing that other REACTers are "listening in" and ready to provide assistance if necessary.

— Monday Night "Net" —

REACT Teams from throughout southern California participate in a GMRS radio "NET" at 8:00 p.m. each Monday on 462.675 MHz to share news and information regarding team activities. Use your new GMRS license to "check in" on the NET and introduce yourself.

— About REACT —

REACT — or **R**ADIO **E**MERGENCY **A**SSOCIATED **C**OMMUNICATIONS **T**EAMS — has been providing free communications for 30+ years. In fact, REACTers from around the Southland use their GMRS radios to report traffic delays, freeway accidents, stranded motorists — and much, much more. Frequently, these reports are given directly to the mass media so it can be shared with the general public over radio & television.

REACTers have established and maintain a network of GMRS repeaters here in southern California. This allows us to extend the operating range limitations of your GMRS radio and offers you the capability to communicate throughout the LA/OC basin, as well as into Riverside, San Bernardino and San Diego counties.

Again, we extend to you an open invitation to learn more about GMRS, about Crest and about REACT.

Don't forget about the Monday Night Net — 8:00 p.m. on 462.675 MHz.
